

PVC CORNER BEAD PRODUCT

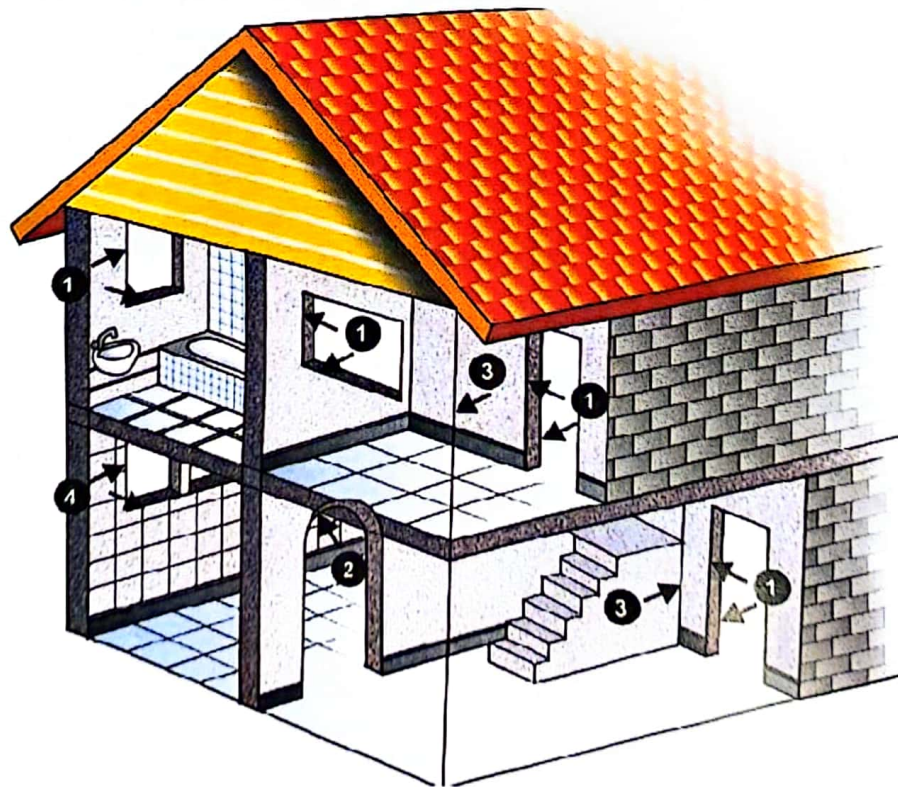

► PVC Corner Bead Product (EXTERIOR)

Description

1) A2 / A3 / A03	PVC Corner Bead
2) L3 / L4 / L03	PVC Corner Bead
3) L10 / AL5	PVC Inner Corner Bead
4) T8 / T10 / T12	PVC Tile Trim
5) U10 / U15 / U20 / U30 / U50 V10 / V50	PVC Groove Joint PVC Groove Joint

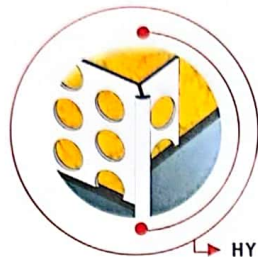

Hong Yik Marketing Sdn Bhd is the principal company successfully launched popularized PVC Corner Bead, in Malaysia. It has been 17 years since we first introduced in the PVC Corner Bead Technology and started manufacturing in Malaysia. PVC corner Bead save up to 80% of time to making corner and angle during plastering. We are now manufacturing more than 50 types of PVC corner beading product of exterior and interior angle corner bead, Skim Coat corner bead, retaining line, Tile trim, U and V Groove Joint to meet the continue active and viable building industry.

EXTRUSION & INJECTION MOULDING

► Quality Custom Designed & High Performance

A specialist in extrusion of plastic and rubber profiles. We offer unrivalled quality, expertise and professionalism with the objective of serving you better.

We can extrude various types of plastic materials, including:

- Rigid PVC (U - PVC)
- Flexible PVC (P - PVC)
- Acrylonitrile Butadiene Styrene (ABS)
- High Density Polyethylene (HDPE)
- Polypropylene (PP)
- Polycarbonate (PC)
- Polystyrene (PS)
- Thermoplastic Urethanes (TPU)

► Custom-made of Plastic Products & HYP Waterstop Profiles

► Internal Construction Joint

► Internal Expansion Joints

► HYP Waterstop

► Description

HYP Waterstops are extruded from high grade PVC compounds, Designed for use in expansion, construction & contraction joint. The aim is to provide a water barrier across all joints where such joints will be subjected to moisture seepage or hydrostatic pressure.

► Advantages

- Will accommodate movement during construction and service life
- Ease of use, simple on-site jointing
- Brass reinforced eyelets at flanges to ensure perfect fixing
- Approved for use in contact with potable water

► Uses

HYP Waterstops c/w brass reinforced eyelets to provide wiring for reinforcement without penetrating the Waterstop within the water-sealing region. HYP Waterstop allow lasting watertight seals in any above or below grades construction for bridges, spillways, reservoirs, tunnels, dams, aqueducts, water lower & tank, retaining walls, sewage treatment plants, filtration & generation plants, basements & swimming pools. They are capable of withstanding from either the internal or external face.

WHEEL SPACER AND CHAIR SPACER

MODEL	HEIGHT	BAR SIZE	STD PKG (PCS)
MS 20	20mm	6-10mm	1,200
MS 25	25mm	6-10mm	1,000
MS 30	30mm	6-10mm	1,000
MS 35	35mm	6-10mm	1,000
MS 40	40mm	6-10mm	800

Legged chair spacer are designed for bottom wire mesh or single reinforcement bar spacing distance of 600/800mm center to center. It provide and ensured perfect concrete cover for slabs before and after casting of slabs.

MODEL	HEIGHT	BAR SIZE	STD PKG (PCS)
HD 204	20mm	9-13mm	2,000
HD 254	25mm	9-13mm	1,500
HD 304	30mm	9-13mm	1,000
HD 404	40mm	9-13mm	1,000
HD 504	50mm	9-13mm	500

Heavy duty chairs series are for heavy reinforcement bars and heavy fort traffic.

MODEL	HEIGHT	BAR SIZE	STD PKG (PCS)
CS 151	15mm	4-8mm	8,000
CS 152	15mm	8-13mm	5,000
CS 201	20mm	4-8mm	5,000
CS 202	20mm	8-13mm	4,000
